Experia Client Features

- Robust network digital signage platform
- Supports unlimited layout panels
- Plays multiple media formats
- Single interface to manage on shelf displays, kiosks & video walls

Experia Administrator

Experia Administrator has a complete flexibility to assign/remove and control the playlist for all or a particular screen. Apart from Media Ads the admin can also assign a Ticker, RSS feed or currency exchange module to a particular screen.

www.intellvisions.com

Screen Templates

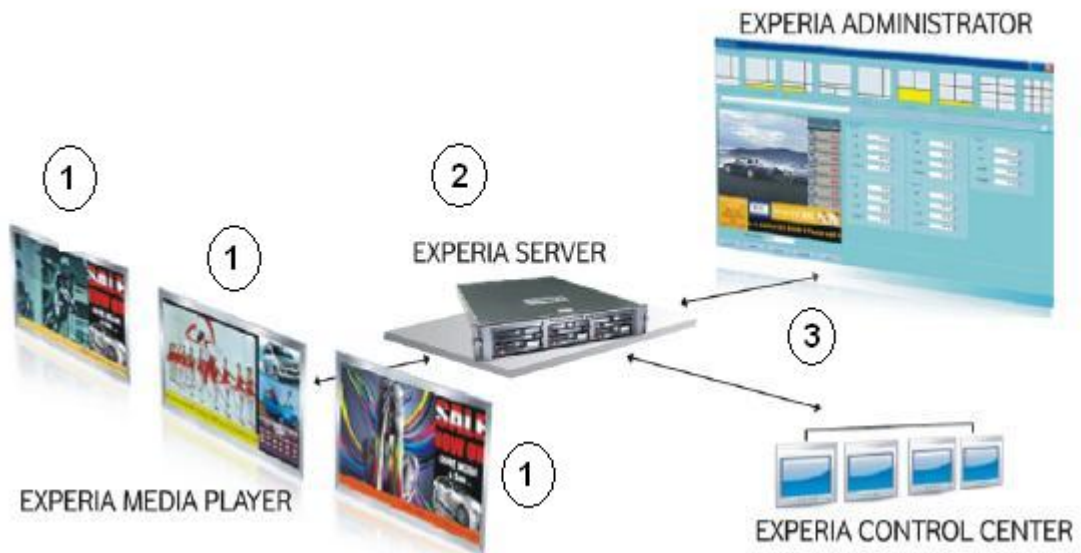

It's a powerful interactive tool with various features allowing admin to divide a single screen into multiple panes running different media contents at a given point of time, design screen layouts, assign day & time slots during which the media must be played.

Experia Admin Features

- **Layout Manager**
- **Playlist Manager**
- **Ticker Manager**
- **Screen Manager**
- **Currency Exchange Manager**
- **Remote Monitoring**
- **MIS**
